================================= * Norton Removal Tool is an easy-to-use software application that was specifically designed to remove some of the Norton utilities found on your computer and optionally deploy the latest version of the removed software. It provides a straightforward way for helping you remove Norton products, so no complicated operations need to be performed. This tool comes in handy when Norton software programs can not be removed in the traditional way from the Control Panel. * It's the best alternative you have when you clutter the computer till the point that it crashes, or if you want to install another antivirus or Internet security technology but you are not allowed to, due to interference with Norton software. It's certainly easier than having to reinstall your operating system. * Supported Norton products Some of the software products it can remove include Norton AntiSpam 2004/2005, AntiVirus 2003 through 2007.2, Internet Security 2003 through 2007.2, Norton Password Manager, Norton Confidential Online 2007, and Norton Internet Security Add-on Pack, as well as more recent editions of Norton products.. * Easy-to-trigger removal operations The only thing you have to do is initiate the software app, shut down any other programs, and restart your computer. The removing process takes some time, and there is no ETA displayed on a progress bar, but your computer system will eventually be cleaned. Bottom line Use it wisely and say goodbye to old stubborn Norton tools, but don't expect to be highly efficient when it comes to other software applications found in the Norton suite. Since it doesn't require much computer knowledge to set up the dedicated parameters even less experienced users can learn to master the entire process in no time. What's New in Version 2.0 =============== * Bug Fixes Informational Message ==================== * Norton Removal Tool 2.0 comes with all the recent updates for Norton software programs that have not been included in previous versions. * Removes all the properties of your system except for "Windows XP, Vista and Windows 7 for MS/Windows XP, Vista and Windows 7 for HP/Windows XP, Vista and Windows 7 for Sony". * In case of any conflict in the settings the default option will be used. * All required parameters are initialized before the removing process starts. This prevents possible errors due to previous changes. * Removes all the running processes including scheduled tasks. * Removes all the related Windows and system registry entries. * It will run in the background 09e8f5149f
